Cisco Press, 2003. Hardcover. Book Condition: Neu. Gebraucht - Gut Unbenutzt. Schnelle Lieferung, Kartonverpackung. Abzugsfähige Rechnung. Bei Mehrfachbestellung werden die Versandkosten anteilig erstattet. - CCDA Self-Study: Designing for Cisco Internetwork Solutions (DESGN) is a Cisco® authorized, self-paced learning tool, providing network design foundation knowledge. This book focuses on designing robust, reliable, and scalable enterprise networks. Whether you are preparing for CCDA® certification or simply want to gain a better understanding of network infrastructure design involving LAN, WAN, voice, and security services, you will benefit from the comprehensive information presented in this book. In CCDA Self-Study: Designing for Cisco Internetwork Solutions (DESGN), you will study a broad range of network design principles and guidelines. You will also learn about the Enterprise Composite Network Model and how it simplifies the complexity of modern networks. After completing this book, you will be able to design campus networks in a hierarchical modular fashion, design enterprise WAN networks, develop an IP network addressing scheme, and select optimal routing protocols for your network designs. You will also be able to assess security solutions and the implications of voice transport over a data network. A running case study puts you in the role of a network designer tasked with proposing solutions to common network design problems. Chapter-ending review questions and case-study simulations reinforce chapter topics, and a wealth of job aids and reference material in the appendixes support your real-world application of the concepts. 1022 pp. English.
