This is a very attractive and captivating approach of not only building up small residential units, but more importantly it is a way of living. Not very long ago the concept of living in a tiny house was just considered as a fashion or a little charm. However, in very little time it has managed to grow into a broader perspective of living, which requires leading a simple, greener and a meaningful way of life. It totally negates the basic concept of society that the more you have the better.
