The volume is intended for students in kindergarten through eighth grade and for their teachers and librarians. Both simple and more difficult experiments are included to meet the diverse needs and abilities of students in these grades. Like its predecessors, this volume is an alphabetical subject index with headings based on the Library of Congress Subject Headings, 12th ed. , with some modifications. In this supplement, the editors have provided more access points to individual projects by increasing the number of see references and the number of subject headings assigned to each experiment.
