This speaks for the superiority of the surfaces over those polished on broadcloth. In polishing prisms I prefer to work them on top of the polisher as they can be easily held, but as it is difficult to hold lenses or planes in this way, without injuring the surfaces, I usually support them in a block of soft wood, turned so as to touch only at their edges, and work the polisher over them. Though it takes considerable practice to succeed at first, the results are so good, that it well repays the few hours work it requires to master the few difficulties it presents.
