Teachers College Press, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book. Great teaching is not just a matter of talent or creativity or passion. Teachers are made, not born, and great teachers know why they do what they do in their classrooms. They do it strategically and purposefully based on technique. Teach on Purpose! demonstrates a highquality research-based and practical approach to teaching that focuses on how to use data about students identities, experiences, and knowledge to design responsive curriculum and instruction that ensures learning. The authors provide secondary school teachers with scientifically proven strategies for creating learning environments that increase student motivation, engagement, and academic achievement. The text features model units authored and taught by practicing classroom teachers in math, science, social studies, and language arts to demonstrate key principles that can be used in any classroom to be a true professional educator. Teach on Purpose! will show secondary teachers how to: * Respond to diverse learners needs while also meeting academic standards across content areas. * Help youth actively apply what they learn to purposes in their lives beyond school. * Use information about students out-of school knowledge to enhance academic engagement and motivation to learn. * Use evolving technologies to enhance traditional curriculum. * Use multiple media and multimodal texts to reach students and engage them for success in contemporary ways.
